

# KEEIS<sup>®</sup> Server & Workstation Technical Specifications

The following specifications are minimum standards that enable **KEEIS** web based software to perform at acceptable levels. Increases in the specifications will increase the performance with resulting decreases in response times. PSST has prepared a sample quote on page two that adheres to these specifications. The quote does not contain the server OS, SQL server database, SSL Certificate or Citrix license . The district may also alter other server options as needed. The Microsoft licenses for the OS and SQL server database can be purchased inexpensively through the state contract. The SSL Certificate (required for the KEEIS eStub software) has a cost of \$200 and up from multiple sources. The cost of the Citrix license is \$200 annually from PSST.

## **KEEIS Server:**

A Windows 2003 server hosting web based **KEEIS** software and serving as a repository for information collected from MUNIS (These specifications are minimum requirements for the server. Use them in selecting an appropriate server from the state contract or other approved bid lists. )

OS:	Windows <sup>®</sup> 2003 Server Standard Edition
Processor:	One XEON 3.0 ghz or greater
Memory:	2GB or greater
Disk Configuration:	2 drive minimum, mirrored recommended
Disk Space Required:	109GB, minimum (36GB + 73GB)
Backup:	Added to normal backup or have separate backup unit
Database Software:	Microsoft <sup>®</sup> SQL Server
Security:	SSL Certificate (for Payroll eStub only)
Remote Access:	Citrix license for GoToMy PC

## **KEEISInsight Workstation:**

A client station running the **KEEISInsight** software (minimum requirements)

OS:	Windows <sup>®</sup> 2000 or XP
Processor:	1.5 ghz or greater
Memory:	256 MB minimum, (512 MB recommended)
Screen Resolution:	1024 x 768 or greater
Screen Size:	17" or greater (19" flat panel recommended)

303 Middletown Park Pl  
Suite B  
Louisville, KY 40243
